Careers have been organized into 16 clusters based on common knowledge and similar skill requirements. Within each cluster there are pathways - a series of connected education, training, and support strategies aimed at helping students achieve their own definition of success.

Career clusters are a framework that allows us to examine areas of interest without having to choose a specific career right away. More information on Career Clusters and Pathways can also be found on the Career Outlook website.

The Career Clusters are:

- Agriculture, Food & Natural Resources
- Architecture & Construction
- Arts, A/V Technology & Communications
- Business Management & Administration
- Education & Training
- Finance
- Government & Public Administration
- Health Science
- Hospitality & Tourism
- Human Services
- Information Technology
- Law, Public Safety, Corrections & Security
- Manufacturing
- Marketing
- Science, Technology, Engineering & Mathematics
- Transportation, Distribution & Logistics
